A repeal of those taxes would be, therefore, a movement in the direction of the general current. The only national tax which at present can be laid with propriety and justice is that on circulation-a tax on a valuable franchise, in maintaining which the government is put to actual expense in engraviry, printing and furnishing the circulating notes. The tax on matches is indefensible and

By executing the plan here outlined congress THE TAXPAYERS OF MULTINONAU COUNTY might reduce the revenue as much possibly as \$35,000,000. We do not see how that sum can be much exceeded without serious risk of embarrassment in the near future. Our manufactures are expanding so rapidly in those branches to which a considerable part of our dutied imports belong that we cannot be sure that the receipts from customs may not soon be reduced considerably from those sources. In view of so many contingencies of expenditure and of revenue, the part of prudence would be

to sedulously avoid all rash steps in surrendering objects of taxation.

BUSINESS NUTROES. II. Ackarman & Co., the old and well known "Dollie filors" of this city, are commencing to close out
their retail establishment preparatory to confining
themselves the more to wholesaling, and in doing
so advertise to rell now one article as cheap to any
one as though they buy in the largest quantities.
Our citizens will no doubt avail themselves of this
arre opportunity and secure articles in their line at
greatly reduced rates, or what is termed first cost.

The track laying is still in progress, Winston & Co. following fast on the heels of Clark & Co., grade contractors, with the iron bands which are cone to span the continent from St. Paul to Portland. Light grading has been done to Guy Bhafs, about ton miles below the mouth of the Big Horn, or about 100 miles west of Miles City. Bome heavy rock work is encountered there, which may detain the contractors semewhat, but they are superior to such obstacles and will cut through it. Fine progress has been made during the winter. The grade through the Crow reservation is completed except a little heavy work, with which the workmen are now wrestling. The entire grade through the reservation will probably be ready for the rails by April, including the tunnet work this side of Junction City. Comments on the Chirece Bill.

New York, March 11.—The Tribute says: The senate has pessed the Chinese immigration bill and has tacked on an amendment or two which perhaps might better have been left off. Comment on the provision which prohibits state courts from conferring citisenship on Chinese is suggested by the fact that Hop Sing of this city yeaterday make a formal declaration before the proper officer of his intention to become a citizen. It is to be regretted that any such bill as this is needed, but sometimes expediency is statemanship of the highest order.

These: United, States Commissioner Bhields yesterday granted naturalization papers to Hop Sing, a native of China; who applied for what are known as first papers. Under the laws of the United States Chinamen cannot be naturalized. The act of 1894 was amended in 1870, so that the revised statutes reads thus: "The provisions of this title shall read the approved. Comments on the Chinese Bill. eads thus: "The provisions of this title shall apply to aliens of African nativity and to persons of african descent." In 1876, when additional amendments to naturalization laws were under considera-tion, attention being called to the fact that the sta-tute as it stood would authorize the naturalization of Asiatics, the section was amended so as to read of Assatics, the section was amended so as to read:
"The provisions of this title shall apply to allens
being free white persons, and to aliens of African
nativity and to persons of African descent." There
are as least two decisions under this statute adverse
a applications of natives of China for naturalizato applications of natives of Chins for naturaliza-tion papers. One was given by United States Cir-cuit Judge Sawyer of California in 1878, and one by Judge Chosto in the United States circuit court of New York in 1879. As a native of Chine is not a "free white person." or "of African nativity," or "ef African descent," it is difficult to find where Commissioner Shields gets his authority to issue naturalization papers to such persons.

New York, March 11.—The inding of the court martial of Bergesut Mason who shot as Guitesu last September was made public yesterday by order issued by Gen. Hancock from headquarters of department of the east at Governor's Island. The court martial finds him guilty and pronounces sentence as follows: To be dischonerably discharged from the service of the United States with the loss of all pays and allowance now due or to become due to him, and then to be confined at hard labor in such pentendary as proper authority may direct for eight years. An order issued yesterday estes that the findings have been suproved and that scatence will be doly executed. The pentientiary at Albany is designated as the place of Mason's confinement. He is now at Washington and will be held there until further orders. The selection of the Albany pentientiary as the piace of imprisonment for Mason is subject to approval of the secretary of war.

A. Cleveland Murder. CLEVELAND, March II.—Mrs. Dempoy Davis Sam, wife of a Chinaman, was found dead, fearfully gashed with a razor, this afternoon. She was married last July in Checimant. She had been working as a domestic in Nashville, but about three months ago she and two Chinamen—George Sam and Lee Chung—came here, and for six weeks the trio joint-Onung—came here, and for six weeks the trio-jointly occupied a marrow basement, where the body was

Chung peddled tea. Both Chinamen were out this
